

PROJECT DESIGN

Project Design

The project consists of the following components:

User → Roles → Institution Details Table → ACLs → Access Control

User

A test user is created with the following details:

- **User ID:** EEE User
- **First Name:** EEE
- **Last Name:** User
- **Email:** eeeuser@gmail.com

Roles

Four custom roles are created:

- **bb1** – READ
- **bb2** – CREATE
- **bb3** – WRITE
- **bb4** – DELETE

All four roles are assigned to the test user.

Institution Details Table

Table Name: u_institution_details

The table stores student information such as:

- Roll Number
- Student Name
- Faculty
- Branch
- Email
- Phone Number
- Description

ACL Design

The ACL structure is:

Institution Details

↓

READ → bb1

CREATE → bb2

WRITE → bb3

DELETE → bb4

Administrators retain full access.
